

Activity Name: Nature Self Portrait

Go for a walk with your child in your yard and pick up various natural items.

When you have completed this, take all of their treasures inside.

Get a piece of paper and draw a large oval on it for a head.

Have your child use liquid glue and the items that they collected to create a self- portrait!

Let your child be as creative as they want.

When your child is finished, talk with your child about what they have created.
